Danger
the flash point. “EMPTY” containers retain product residue (liquid and/or vapor) and can be dangerous. DO NOT PRESSURIZE, CUT, WELD, BRAZE, SOLDER, DRILL, GRIND, OR EXPOSE CONTAINERS TO HEAT, FLAME, SPARKS, STATIC ELECTRICITY, OR OTHER SOURCES OF IGNITION; THEY MAY EXPLODE AND CAUSE INJURY OR DEATH. Empty drums/containers should be completely drained, properly bunged and promptly returned to a drum re-conditioner, or properly disposed of.

Hazardous Combustion Products: See Section 10 for a list of hazardous decomposition products for this mixture.

Fire Fighting: If evacuation of personnel is necessary, evacuate to an upwind area. Decontaminate personnel and equipment with a water wash-down after fire and smoke exposure.

Fire Fighting: Containers can build up pressure if exposed to heat (fire). As in any fire, wear self-contained breathing apparatus pressure-demand (MSHA/NIOSH) approved or equivalent and full protective gear.

6. ACCIDENTAL RELEASE MEASURES
Isolate the area and contain the spilled material. Persons not wearing the appropriate PPE should be removed from the area until the spill is cleaned up. Stop leak if you can do it without risk, stay upwind, and avoid run off to waterways and sewers.

SMALL SPILLS: Soak, wipe or mop up and dispose of in approved waste containers.

LARGE SPILLS: Absorb spill with inert material (e.g. dry sand, clay or earth), then place in a chemical waste container. Avoid runoff into storm sewers and ditches, which lead to waterways. Wear a self-contained breathing apparatus and appropriate personal protective equipment. Evacuate area of unprotected personnel. Eliminate all sources of ignition. Provide adequate ventilation.

7. HANDLING AND STORAGE
Handling Precautions: Wear all appropriate Personal Protective Equipment (PPE). Wear respiratory protection or ensure adequate ventilation at all times as vapors can accumulate in confined or poorly ventilated areas. Keep containers tightly sealed. Do not cut, puncture or weld on or near this container. Do not re-use for any purpose until it has been commercially cleaned. Keep container closed when not in use. Keep away from children and animals.
Storage: Freezes at about 32°F (0°C), and keep containers below 120°F (48°C). Do not store or pipe through anything aluminum, use only poly-lined steel or approved plastic. Keep containers tightly sealed. Store away from incompatible material.
