1. Identification
Product Identifier: **Rectangular Weep Holes & PTA Tubes**
Manufacturer: Hohmann & Barnard, Inc.
30 Rasons Court
Hauppauge, NY 11788
(631) 234-0600
www.h-b.com

Telephone Numbers
During normal business hours call: (800) 645-0616
24-hour emergency call Chemtrec: (800) 255-3924

2. Hazards Identification
**CAUTION!** Powdered material may form explosive dust-air mixtures. Minimize dust formation and accumulation.

**POTENTIAL HEALTH EFFECTS:**

* Eyes: low hazard for usual industrial handling *
* Inhalation: low hazard for usual industrial handling *
* Skin: Molten material will produce thermal burns *

GHS Ratings:

**Oxidizing Solids:** 3

GHS Hazards:

H272 May intensify fire; oxidizer

GHS Precautions:

P210 Keep away from heat/sparks/open flames/hot surfaces. — No smoking.
P220 Keep/Store away from clothing/…/combustible materials.
P221 Take any precaution to avoid mixing with combustibles/oxidizers.
P280 Wear protective gloves/protective clothing/eye protection/face protection.
P370+P378 Use water spray, dry chemical, or CO₂ for extinction.
P501 Dispose of contents/container to federal, state, and local laws concerning health and environment.

**Signal Word:** Warning

*Chemical subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372. See attached cover letter for additional information on component(s) that may be subject to the Section 313 notification requirement.

4. First-Aid Measures

**Skin:** If burned by contact with molten material, cool as quickly as possible with water and see a physician for treatment of burn.

**Note to Physicians:** Burns should be treated as thermal burns. The plastic will come off as healing occurs; therefore, immediate removal from the skin is not necessary.

5. Fire-fighting measures

**FLASH POINT:** Not applicable; Nonvolatile combustible

**EXTINGUISHING MEDIA:** Water spray, dry chemical, or CO₂

**HAZARDOUS COMBUSTION PRODUCTS:** No data found

**FIRE FIGHTING PROCEDURES:** Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes.

**UNUSUAL FIRE AND EXPLOSION HAZARDS:** Refer to NFPA Pamphlet No. 654, “Prevention of Fire and Dust Explosions in the Chemical, Dye, Pharmaceutical, and Plastics Industries,” if this material is to be reduced to or collected as a powder.

6. Accidental release measures

**STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED:** Collect and contain for salvage or disposal.

**WASTE DISPOSAL METHODS:** Incineration or landfill. Observe all federal, state, and local laws concerning health and environment.

**CLEAN WATER ACT REQUIREMENTS:** No data found.

**RESOURCE CONSERVATION AND RECOVERY ACT (RCRA) REQUIREMENTS:** No data found.

7. Handling and storage

Keep from contact with oxidizing materials.
8. Exposure controls/personal protection
ENGINEERING CONTROLS: No data found
ADMINISTRATIVE CONTROLS: No data found

PERSONAL PROTECTIVE EQUIPMENT
SKIN & EYE PROTECTION: Safety glasses with side shields (or goggles) are recommended for any type of industrial chemical handling. Gloves should be worn to protect against thermal burns. Good industrial hygiene practice should be followed which includes minimizing skin contact.

RESPIRATORY PROTECTION (SPECIFIC TYPE): If respiratory protection is needed, an appropriate NIOSH-approved respirator for dust or fume should be worn. If respirators are used, a program should be established to assure compliance with OSHA Standard 29 CFR 1910.134.

VENTILATION
Good general ventilation (typically 10 air changes per hour) should be sufficient to control airborne levels. Ventilation rates should be matched to conditions. Supplementary local exhaust ventilation or respiratory protection may be needed in special circumstances such as mechanical generation of dusts, overheating, etc.

9. Physical and chemical properties
Appearance and Odor: Pellets with low odor.
Softening Point: >125ºC (>257ºF)
Specific Gravity (H2O = 1): >1.0
Solubility in Water: Negligible.

10. Stability and reactivity
STABILITY: Stable
HAZARDOUS DECOMPOSITION: As with any other organic material, combustion will produce carbon dioxide and probably carbon monoxide.
HAZARDOUS POLYMERIZATION: Will not occur.
CONDITIONS TO AVOID: No data found.
INCOMPATIBLE MATERIALS: Oxidizing materials can cause a reaction.

Feeding Study No. 1: Rats fed diets containing 20% of the compound for 7 days consumed approx 16 g/kg/day with a maximum daily intake of 18.5 g/kg/day. The animals showed no ill effect from this massive dosage. (2)

Feeding Study No. 2: Rats were fed diets containing 1.0% and 5.0% of the compound for 99 days. No biologically significant effects were noted in feed intake, weight gain, clinical signs, hematology, gross pathology, or histopathology. (2)

Feeding Study No. 3: Dogs were fed 50 to 150 g/day of the compound for 4 mo without toxic effect. (2)
In rats, intratracheal injection of cellulose acetate butyrate dust suspended in 0.25 mL of water gave no evidence of specific pulmonary reaction as judged by the histological appearance of the lungs at 10 days and 14 days after injection. (2)

Rats exposed to saturated vapor of the material for 8 h showed no mortality. (2)

Rats fed levels of 0.5, 2.0, or 5.0% of the material in their diet for a month showed definite growth effect at 5%, but not at the lower levels. No changes in hematology, urine or histopathology were noted at the lower levels. Similarly, except for a slight transient loss in appetite, no changes in these same parameters were observed in dogs fed 2 g/kg of the material in their diet for 2 mo. Rats fed doses of 0.16 to 4.74 g/kg/day in their diet showed deaths at 4.74 g/kg; no effects were observed on growth, appetite, liver and kidney weights, or histopathology at 0.16 g/kg. (2)

12. Ecological Information
No data found.

13. Disposal Considerations
Observe all federal, state, and local laws concerning health and environment.

14. Transport information
Not regulated by DOT

15. Regulatory Information
No data found.

16. Other information
Issue Date: May 31, 2015
Revision Date: May 31, 2015

The data in this Safety Data Sheet relates only to the specific material designated herein and does not relate to use in combination with any other material or in any process. This information is taken from sources or based upon data believed to be reliable; however, Hohmann & Barnard, Inc. disclaims any warranty, express or implied, as to the absolute correctness or sufficiency of any of the foregoing or that additional or other measures may be required under particular conditions.

The information contained herein is based on current knowledge and experience; no responsibility is accepted and that the information is sufficient or correct in all cases. Users should consider this data only as a supplement to other information. Users should make independent determinations of suitability and completeness of information from all sources to assure proper use and disposal of these materials, the safety and health of employees and customer, and the protection of the environment.
